

STRIVE - THE EMPLOYEE APP

Reimagine the Employee Experience -
One Individual at a Time

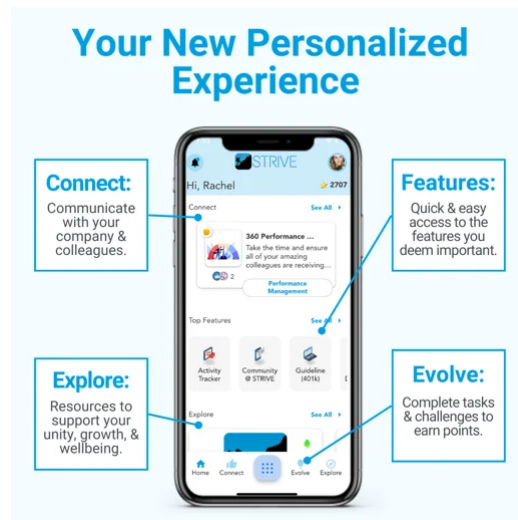

Hi ,

We have many exciting things happening here at STRIVE! Take a look at updates and other important information:

The Updated Experience is Here!

Personalized to each user, our new and improved design allows each person to curate the employee experience they are looking for. Our new design also provides a cleaner, more modern approach and filled with resources to support unity, growth, & wellbeing. To have the best experience, each user should complete onboarding.

During onboarding, users choose the topics and features they want to see the most of and interact with. This will curate their experience in the app and the recommendations they receive!

See Us at SHRM

We will be attending the world's largest HR conference happening June 11-14 in Las Vegas! With more than 275 sessions, SHRM23 gives in-depth insights into all things HR. If you plan to attend, save us to your [show planner](#) and come say hi! We would love to see you and will also have fun swag that you can grab.

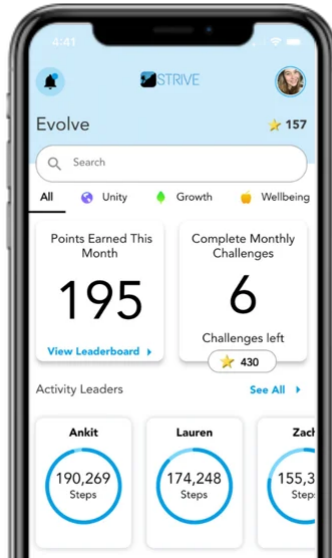

NPS Survey

We always aim to improve the experience we provide to you and your employees. Please take a minute to fill out the following [survey](#) before May 1st. Your response will be critical to identifying areas of the app experience we need to improve to make the best employee experience app.

STRIVE Hot Tip

Being active can improve mental clarity, quality of life, and overall physical and mental health. Start a step challenge with your team to get active, and also start some friendly competition. Reach out to your Customer Success member if you need help in getting the challenge live in your app. Good luck!
